

Trained technicians recondition each machine at our facility in Pella, Iowa.

New vs. Certified Pre-Owned

Which Lely milking robot is right for your farm?

Choosing between a new and a Certified Pre-Owned Lely Astronaut robotic milking system depends on your farm's needs, goals, and budget. Both options include full Lely Center support and reliable performance. This overview helps you compare and decide which solution fits your farm best.

Certified Pre-owned vs. new: what's the difference?

Whether you're considering a brand-new system or exploring a more budget-friendly option, both Certified Pre-Owned Lely Astronaut robotic milking systems and new Lely robots deliver the high performance and support you expect from Lely. See this side-by-side comparison to help you choose what fits your farm best:

Feature	New Lely robot	Lely Certified Pre-owned robot
Condition	Brand-new from factory	Optimized through recondition process
Warranty	12-month full warranty	12-month full warranty
Software	Latest version installed	Latest compatible version
Performance Certification	Factory-tested and approved	Certified to meet or exceed original factory standards
Hardware Upgrades	Included	Installation of over 50 factory wear parts
Support & Service	Full Lely Center support	Full Lely Center support
Expected Lifespan	Longest possible	Comparable to new, depending on usage and care
Price Point	Highest investment	More affordable
Suitability	Long-term investment	Reliable solution for price-conscious dairy producers

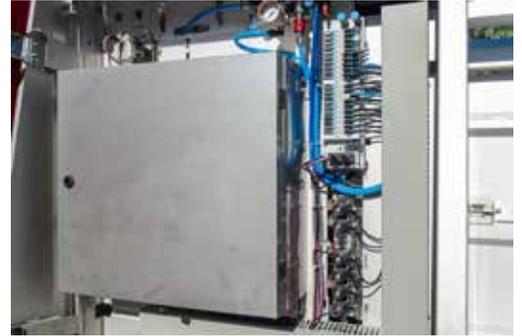

What makes a **Lely Certified Pre-Owned** milking robot unique?

- **Extensive reconditioning**
Lely Certified Pre-owned robots are completely disassembled, cleaned, and inspected. Worn components are replaced, and over 100 new parts are installed.
- **Certified by Lely**
The reconditioning and certification of every CPO Lely Astronaut robotic milking system is performed at our North American headquarters in Pella, Iowa.
- **Performance like new**
Every system is rebuilt to meet or exceed the performance of when the system was new, regardless of its previous service life.
- **Trusted support**
Lely Certified Pre-owned robots include a strong warranty and receive the same service, maintenance, and software updates as new systems.
- **Smart investment**
With significant savings and long-term reliability, Lely Certified Pre-owned robots are ideal for farms looking to automate with confidence and control costs.
- **Talk to your Lely Center**
Lely Certified Pre-Owned systems can be custom ordered through your local Lely Center any time.

Not sure which setup best fits your goals? Your local Lely Center advisor is ready to guide you through the options, discuss your needs, and provide support every step of the way.

Lely is **setting the industry standard as the first** to offer Certified Pre-Owned (CPO) Lely Astronaut robotic milking systems.

Reliable. Affordable. **Certified by Lely.**
